

Lugarno Football Club Mission Statement and Guiding Principles

Mission statement

To become the Football Club of choice for members of the local and surrounding communities by providing them with the opportunity to play competitive football and develop their football skills in a friendly, safe and fun filled environment.

Guiding principles

- To remain a community based family club founded on the principles of encouraging competitive football through skill development and fitness, and attaining reward through fair play and teamwork.
- To welcome and embrace people from all backgrounds, irrespective of their racial, religious or cultural heritage.
- To invest the necessary resources and time into our people to enable players as well as coaches, managers and team officials to reach their full football potential.
- To encourage, promote and embrace the spirit of volunteerism, as we are a club comprised of volunteers.
- To encourage and practice tolerance by all players and officials.
- To cater for all genders and age groups who want to become part of the growing Lugarno Football Club and community.

At Lugarno Football Club, we measure success not only in terms of number of premierships won, but more importantly, by having players who year in year out return to play and represent the Club. Our doors are always open to those who espouse our values and principles.
